

# LHH Career Resource Network™

More options. Better results.

## **Service overview.**

Career Resource Network (CRN) is a powerful, comprehensive web portal that helps individuals in career transition explore their options, define their objectives, conduct a job search, pursue business ownership, or consider active retirement.

LHH pioneered the use of an online tool for individuals in career transition. In the past few months, we've added comprehensive overviews of internet job searching, green jobs, and building your online brand. To our job board, LeadLink, we've just added the world's largest job search engine powered by Simply Hired®, which brings millions of job openings to our candidates in service.

## **What it delivers.**

CRN gives transition candidates the tools and services they need to move forward with their working life. CRN is the online component of LHH's career transition services, which help transitioned employees land in their next opportunity faster.

CRN complements and is integrated with 1:1 career coaching, Job Search Work Teams, and other elements of LHH's career transition service offerings. It gives transitioned individuals access to valuable career transition tools, seminars, data, and networking opportunities in one, easy-to-use website they can access from anywhere, seven days a week, 24 hours a day — for the rest of their career.
